Specialization in Cloud Computing

2020-2023

**YOGINATH DEGREE COLLEGE**

- Bachelor of Science
- Physics, Chemistry, Maths

## SKILLS

- Project Management
- C language Basics
- Python
- HTML 5
- CSS 3
- JavaScript
- Database Management System

## LANGUAGES

- English: Fluent
- Hindi - Fluent

## PROJECTS

### Student Fees Management System

Django - Python Framework

- The Student Fees Management Project in Python is designed to streamline the tracking and management of student payments and fees.
- It features functionalities such as fee collection, record keeping. Users can easily add or update student information, view payment history, all through an intuitive command-line or graphical interface.
- This project aims to simplify administrative tasks and ensure accurate financial oversight for educational institutions

### Medicine Finder

Flask - Python Framework

- The Medicine Finder Project combines Python with HTML and CSS to create a web application that helps users locate medications based on various criteria.
- Python handles the backend logic for searching a database of medicines, while HTML and CSS provide a clean and intuitive user interface. The application allows users medication names and receive relevant results, offering a seamless and visually engaging experience.

### Portfolio

2024 - 2025

HTML5, CSS3 & JavaScript

- Portfolio showcases my skills and projects in a professional and visually appealing way. It highlights my expertise, creativity, and accomplishments, making it an essential tool for personal branding and career growth.
- Portfolio is the combination of HTML5, CSS3 & JavaScript.
